The Day We Must Not Forget

March 11th, 2015.

It has been 4 years since Japan was attacked by the Earth quake and TSUNAMI and we still need help for the Earthquake Disaster Reconstruction.

Yahoo Japan implemented a Fund-Raising Activity through their WEB-Site and they collected over 25 million JPY for the work and other organizations also did those kinds of activities. However, the most important thing is not money but the people. we have to keep encouraging the people there who have been shocked from the day, otherwise the reconstruction will have no meaning if the people cannot live positively.

In This Issue

- *The day we must not forget*
- *WEX Global Forum 2015*
- *Water Philippines 2015 EXPO*

WEX Global 2015 in Turkey

At WEX GLOBAL 2015, an action oriented summit which places business meetings related to Water Resources and Energy, was held in Istanbul in March and AMCON won WEX INNOVATION AWARD at the forum.

Mr. Richard Beagrie, Sales director for Amcon Europe said " Volute Dewatering Press was originally developed in Japan but the technology has been installed all over the world. It is designed by comments from users who had complaints with their sludge dewatering system at that time. We could win the award because it is designed for them and we are showing its performance as much as possible through our activities."

Mr. Mark Barker, CEO of WEX, also mentioned as "Although many companies insist that they have developed innovative technologies in this field, most of them cannot show their performance and potential. WEX does not introduce only the latest technology related to this field but also let specialists evaluate those technology through our activities so Volute obviously can be solutions for Waste Water Treatment problems. I would like to thank AMCON for their achievement that they have brought the Technology into the World."

Volute is the dewatering press of users, by users and for users. AMCON will keep doing our best effort to develop Volute technology and provide solutions for all of our clients with this prestigious award.

Mr. Richard Beagrie and
Mr. Sean Wright at WEX Global 2015.
