October 2015 / Vol.82

AMCON Europe Continues to Grow!

As the business expands and we strive to provide a better and faster service, our company has grown significantly in the past year to accommodate the increasing demand.

This summer we finished the expansion of our offices to double their size and include a brand new reception, an area for receiving visitors, a new conference room and expanding our warehouse/factory space to twice the size. This would not be possible without the continuous support of you, our partners and customers!
