AMCON NEWSLETTER

November 2015 / Vol.83

NEW PRODUCT - Powder Polymer Make-up System AP Series

Subsequent to our Liquid Polymer Make-up System AF series, AMCON has launched the new Powder Polymer Make-up System AP series this month.

Following our previous products, AP series has been also designed to provide operators with hassle-free daily operation and maintenance.

<Advantage>

- Save labor by fully automatic operation
- Constant concentration
- Interlocked operation with sludge dewatering press or another machine

In this issue

- NEW PRODUCT - Powder Polymer Make-up System AP Series
- AQUATECH AMSTERDAM (3 - 6 NOVEMBER 2015)
- Your Friends in AMCON

AQUATECH AMSTERDAM (3 - 6 NOVEMBER 2015)

Amcon Europe and our Belgian partner Novotech exhibited at Aquatech Amsterdam 2015 exhibition, the leading trade exhibition for process, drinking and waste water. On display we had our Volute ES-131 with HMI panel, fitted with sludge pump and polymer dosing system to show what our compact and easy solution for “instant” dewatering looks like.

There was a great reaction to our technology and we attracted many visitors who did not know Volute technology before. A big thank you to all the visitors that took the time to visit our stand and we look forward to answering all your inquiries. We are looking forward to future cooperation.

Your Friends in AMCON - Vol. 6-

We feel that most of you have contact with very restricted staff of AMCON. Thus, we would like to launch series of article dedicated to and focusing on your further understanding on AMCON. As the first step, here's the introduction of your “New Friends in AMCON”.
