Commissioning Service Report – Seasonings Manufacturing Plant –

AMCON finished a commissioning service of ES-302F-TA model for a seasonings manufacturing plant. The user was using a Belt Press at their factory but performance was not satisfactory because they always had to pay attention to the operation and maintenance. After the replacement to Volute Dewatering Press, the operation has become stable and the user is satisfied with Volute Dewatering Press now!

<Result>

Model	ES-302F-TA
Sludge Type	Biological + Chemical precipitation
Sludge concentration	TS:2.9 % , SS:27,900 mg/L
DS Discharge Volume	73.2 kg-DS/h
Water Content	81.8 %
Polymer Adding Rate	0.48 %
Recovery	97.0 %

Partner's Voice

Company	VoR Environmental
Sales Person	Mr. Cedric Lo
Country	Australia
Relationship	Distributor
<p>VoR is our distributor in Australia who has been in a deep friendship with AMCON for 10 years. They have 4 Exhibitions in 2016 and already attended 2 of them as of now. Mr. Cedric says "Sales in Australia has become really tough since competitors are coming more and more than before. However, we are very positive to promote Volute. Through OZ Water in this May, we could meet some consulting companies and they have got interests in Volute Technology. Australian Market has more projects in Municipal Market which we need to cooperate with such companies for. So I believe the EXPO will help us to open the market furthermore!!"</p>	

Upcoming Exhibitions

AMCON is proud to be exhibiting its unique sludge, award-winning dewatering press, VOLUTE, at 3 upcoming exhibitions. Our sludge treatment experts will share our latest references and developments. Please take this great opportunity to visit us!
