

Please find below our latest issue of AMCON newsletter and feel free to forward it to your customers.

AMCON NEWSLETTER

October 2016 / Vol.94

Intensive assembly and skills training for our distributors

AMCON is providing intensive assembly and skills training for our distributors and resellers. The main aim is to provide our partners in pleasant way with best knowledge when it comes to commissioning, overhauling and potential trouble shooting of our technology. We strongly believe that this approach helps our associates to improve delivering of our mission: To provide customers with amenity and convenience which are beyond expectations.

Va-Mässan Exhibition, September 2016

This fair is held biannually in Jönköping, Sweden and focused on water and wastewater industry. It is the most important meeting place for professionals from this sector from Sweden and other Scandinavian and Baltic countries. Volute dewatering press was promoted by our Swedish distributor company MAF Pump AB. Our unique technology combining thickening and dewatering in one step raised great interest among visitors. Exhibited unit ES-302F-SA-CE was delivered just after the show directly to the customer. When commissioned it will be customer's second Volute in operation. According to company's manager words they are very satisfied with Volute's silent vibration-free performance achieving very satisfactory results with cake dryness above 25 % DSC.
